2. TERMS OF REFERENCE

2.1. INTRODUCTION

- 2.1.1 The Railway Safety Regulator (RSR) was established in terms of the National Railway Safety Regulator Act, Act 16 of 2002 (“the Act”) as amended, to establish a national regulatory framework for South Africa and to monitor and enforce safety compliance within the rail sector. The RSR is an agency of the Ministry of Transport and comprises a Board, Chief Executive Officer (appointed by the Minister), Executive management, and staff.
- 2.1.2 The primary legislative mandate of the RSR is to oversee and enforce safety performance by all railway operators in South Africa including those of neighbouring States whose rail operations enter South Africa. Notwithstanding the foregoing, operators are, in terms of the Act, primarily responsible and accountable for ensuring the safety of their railway operations.

2.2. BACKGROUND

- 2.2.1 The information security landscape is ever changing. Cyber threats are amongst the most serious economic and information security challenges faced currently. Organisations face an array of emerging threats that could severely compromise and limit the ability for an organisation to perform business-critical functions. Attackers employ ever more sophisticated tools and techniques and often possess substantial resources in the form of syndicates and hacking communities to assist in compromising an organisation
- 2.2.2 RSR realises that to survive in the cyber age, it must embrace, meet and counter the vast array of challenges associated with information and cybersecurity risks and challenges. Constant and effective monitoring of the entire organizational information security eco-system, coupled with a wide array of analytics and artificial intelligence is critical to ensure early warning and response to risks and threats. Monitoring of technology alone is simply

no longer enough to adequately defend against information and cyber threats. Furthermore, with security such an integral part of organisation operations, it is vital to have a holistic view of the actual security posture to build and ensure a resilient organisation

2.2.3 RSR is a high-performance organisation and relies heavily on technology to fulfil its mandate and maintain high levels of operational efficiency. To achieve its Strategy, RSR needs to digitally transform the organisation into an efficient, agile and mobile workforce, thus heavy reliance on cloud technologies of which the Microsoft 365 and Vodacom cloud hosting are key cloud platforms.

2.2.4 These ToRs are aligned to the ICT Strategy pillar to transform the ICT operations and infrastructure services. The ICT Strategy context seeks to achieve the following key objectives:

2.2.4.1 Optimise and reduce the cost of the RSR ICT operations.

2.2.4.2 Transform the ICT unit into a high-performance strategic partner to RSR.

2.2.4.3 Deliver the maximum level of new capabilities in a short time.

2.2.4.4 Deliver flexible, responsive, platform(s) that can support the RSR business as it evolves.

2.2.5 These inform the Terms of Reference which seeks to find the bidders who can deliver the services and have a realistic chance of succeeding in the process to submit a proposal to meet the scope and requirement defined herein for 12 months.

2.2.6 RSR is a knowledge-based organisation at the cutting edge of technology in the rail sector. With the advancement of 4IR in the railway sector and for RSR to remain relevant, we endeavour to lead, explore and innovate at the bleeding edge intersection of engineering and Information and Communication Technologies. As such, ICT security with cyber capabilities is a key area of interest as articulated in RSR ICT Strategy.

2.2.7 The RSR requires a turn-key service provider to provide various IT Security related services which include:

2.2.7.1 Fully managed outsourced Next-Gen Security Operating Centre (SOC) that would monitor security health, risks, and events, on a 24 hours/7days inclusive of the following:

2.2.7.2 Security monitoring and correlation for the entire RSR security ecosystem including management and operation the following:

2.2.7.2.1 IT ecosystem performance and health monitoring,

2.2.7.2.2 Incident management and response,

2.2.7.2.3 Advisory service to Policy and Standard Operating Procedure development,

2.2.7.2.4 Reporting and trend analysis, and

2.2.7.2.5 Provisioning of live dashboards.

2.2.7.3 Provide a uniform, reliable, scalable, and resilient cybersecurity infrastructure that is built according to best, leading practice and validated designs.

2.2.7.4 Acquire services with service quality guarantees backed by Service Level requirements enforced through Contracts Agreements.

2.2.7.5 Minimize administrative effort by requiring the appointed bidder to take lead in providing the end-to-end cybersecurity management function and let the RSR manage the service level agreement (SLA).

2.2.7.6 Provide a high quality, uniform, stable, flexible, managed, monitored, and sustainable ICT cybersecurity services.

2.2.7.7 The ability to expand service delivery and support services to all business locations and related parties.

2.2.7.8 Continually reduce the cost-of-service delivery within the RSR, and the total cost of ownership through innovation.

2.2.7.9 Transition of existing infrastructure, and through the effective utilisation of existing Software licensing agreements.

2.2.7.10 Provide training and skill transfer to RSR internal staff.

2.2.8 The end-to-end managed ICT cybersecurity services cover all the RSR sites and regional offices within South Africa.

2.11.1 The service providers are required to submit a detailed financial proposal costing the services per deliverable as set out in the scope of work. The overall figure must be VAT inclusive

2.12. SUBCONTRACTING

2.12.1 A bidder awarded a contract may only enter into a subcontracting arrangement with the approval of the RSR.

2.12.2 A bidder awarded a contract may not subcontract more than 25% of the value of the contract to any other enterprise that does not have an equal or higher B-BBEE status level of contributor than the person concerned, unless the contract is subcontracted to an EME that has the capability and ability to execute the subcontract.

2.13. JOINT VENTURES, CONSORTIUMS AND TRUSTS

2.13.1 A trust, consortium or joint venture, will qualify for points for their B-BBEE status level as a legal entity, provided that the entity submits their valid B-BBEE status level certificate.

2.13.2 A trust, consortium or joint venture will qualify for points for their B-BBEE status level as an unincorporated entity, provided that the entity submits their consolidated B-BBEE scorecard as if they were a group structure and that such a consolidated B-BBEE scorecard is prepared for every separate bid.

2.14. LEGAL IMPLICATIONS

2.14.1 It is a requirement that the successful bidder will enter into a service level agreement (SLA) with the RSR.

2.15. COMMUNICATION

2.15.1 The communication between RSR and bidders is permitted prior to the closing date of the tender, such communication is limited to instances where bid clarity is sought, to obtain information or to extend the validity period. Any communication either by letter or electronic mail or any other form of correspondence to any government official, department or representative of a testing institution or a person acting in an advisory capacity for the RSR in respect of this bid between the closing date and the award of the bid by the bidder is prohibited.

2.18. FRONTING

2.18.1 The RSR supports the spirit of broad based black economic empowerment (B-BBEE), and recognizes that real empowerment can only be achieved through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent and legally compliant manner. It is therefore against this background the RSR condemns any form of fronting.

2.18.2 The RSR, in ensuring that bidders conduct themselves in an honest manner will, as part of the bid evaluation processes, conduct or initiate the necessary enquiries/investigations to determine the accuracy of the representation made in bid documents. Should any of the fronting indicators as contained in the Guidelines on Complex Structures and Transactions and Fronting, issued by the Department of Trade and Industry be established during such enquiry/investigation, the onus will be on the bidder / contractor to prove that fronting does not exist. Failure to do so within a period of 14 days from date of notification may invalidate the bid/contract and may also result in the restriction of the bidder/contractor to conduct business with the public sector for a period not exceeding ten years, in addition to any other remedies the RSR may have against the bidder/contractor concerned.

- 2.19.3 The RSR further reserves the right to reject all proposals and seek new proposals when such is considers to be in the best interest of RSR. If there is any evidence indicating that two or more bidders are in collusion to restrict competition or are otherwise engaged in anti-competitive practices, the proposals of all such bidders shall be rejected, and such evidence may be a cause for disqualification of the participants in any future solicitations issued by the RSR.
- 2.19.4 The RSR reserves the right to hold discussions and/or negotiations with any individual or qualified company, to interview or not, to request additional information or revise the proposal, or to request the best and final offers if it is in the best interest of the RSR to do so. CERTIFICATE OF INDEPENDENT BID DETERMINATION

This Standard Bidding Document (SBD) must form part of all bids¹ invited.

1. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
2. Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
9. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
10. In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
